

# RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA199P.

DAEWOO LACETTI & HOLDEN VIVA  
(Filter is located behind glove box)

1. The cabin air filter is located behind the glove box unit.
2. With the unit closed remove the bottom screws, open the glove box and remove the top screws holding the unit. Gently drop the lid and pull out the unit until the electrical wiring is visible.
3. Disconnect the wiring and put unit aside. Inside the empty space left by the glove box is the cabin air filter housing. The lid is secured by four bolts. Remove all of them and pull out the housing lid.
4. The filter will now be visible. Grab and gently pull out to avoid trapped debris from being spilled around. Clean housing area and fit new filter making sure it is in the right air flow direction. Refit all components in reverse order.
