STEP 3

MAZDA 3 (BL), ALL ENGINE TYPES, (04/09 01/2014).

FILTER IS LOCATED BEHIND THE GLOVE BOX

WORK PROCEDURE

- 4 Open the cabin filter "door" by unscrewing the two philips screws.
- 5 Remove the old filters. Insert the new filter with foam on its top and push up into the compartment. Slide and snap the other filter and refit all parts in reverse direction.
