

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA311P.

LANDROVER Freelander 2

1. The cabin air filter is located in the passenger footwell behind the centre console side trim. For better working space, slide the passenger seat all the way back.
2. Open the glove box and remove any contents you may have inside. Press both top corners of the glovebox lid and pull it down to unhinge it carefully then remove the strut from the back of the box and pull the compartment out.
3. Unclip the cabin air filter housing lid and reach for the filter. If removing the filter from below is proving hard, try pushing in the felt like cover above. A gap should form allowing you to grab the filter from the top.
4. Insert the new cabin air filter in the right air flow direction as indicated on the side of the filter.
5. Refit all components in reverse order.
