

RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA415M

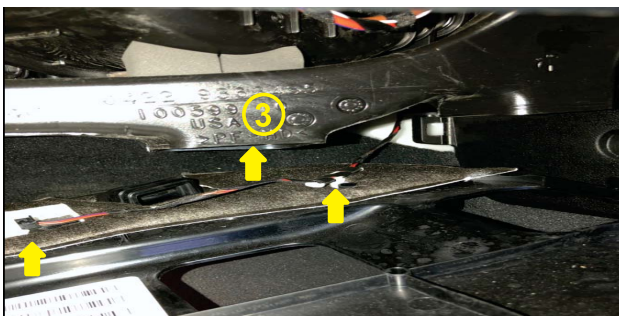

BMW X3(G01) PETROL, DIESEL NOV-17 ON/320D (G20) DIESEL JAN-19 ON/X4 (G02) PETROL, DIESEL JUL-18 ON.

The cabin filter is located below the glove box on the passenger side. To get access to the filter. Follow the instructions as follows.

Turn the locks to 90 degree. To detach the footwell trim.

Unlock the associated plug connection and disconnect to remove the trim. Unclip the airduct (3) from the right first to remove for easy accessing the cabin filter housing lid.

Proceed to undo 2 screws using torx Tx15 securing the housing lid and remove the cabin filter cover by unclipping on eitherside of housing.

Note: Do not remove the drainage hose. Proceed to remove the old cabin air filter and refit the new one making sure the housing is clean of loose dirt and that the filter is placed in right air flow direction. See side of filter for indication.
