

## FITTING INSTRUCTIONS FOR RYCO CABIN AIR FILTER RCA191C VOLKSWAGEN POLO (9N & 6R) (pictured), AUDI A1 & SKODA ROOMSTER

The filter housing sits underneath the glove box on the right hand side of footwell. Once housing has been identified slide plastic braces towards the centre of the lid to release it as indicated in the picture above.

Filter housing lid released.

Remove dirty filter from housing slowly as dirt may be released onto the carpet. Clean the housing of possible objects like leaves and insert new filter in the right direction. Check flow direction indicated on filter.

Re-fit components in reverse order.
