

RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA288P. GREAT WALL V200 & V240

1. The cabin air filter is located behind the glove box compartment. To gain access to the cabin air filter the entire unit requires removal.
2. Open the glove box on the passenger side and from both top corners apply pressure towards the inside to bypass the retaining lugs. Once bypassed the lid will drop completely.
3. Identify the cabin air filter housing and unclip the lid from one of the corners and remove. Note: In some vehicles you may need to unscrew the housing lid.
4. Slide out the old cabin air filter carefully to avoid any accumulated debris from being spread around.
5. Slide in the new filter making sure it faces the correct air flow direction and refit all components in reverse order.
