

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA253P.
MERCEDES BENZ ML CLASS (W163)

1. The cabin air filter is located below the glove box compartment on the passenger side.
2. Slide the passenger seat back to its farthest position, identify the plastic trim in the footwell underneath the glove box where the power outlet is. Remove the 2 screws securing it and slowly remove the trim until the power outlet connector is visible. Now disconnect the power outlet and remove the trim completely.
3. The cabin air filter housing will be easily accessible at this point. Unclip the lid from the front, pull down and remove.
4. Grab the filter and slide it out carefully to avoid any accumulated debris from being spread around.
5. Clean the area and slide in the new filter making sure it faces to the right air flow direction and refit all components in reverse order.
