

RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA167P.

FORD KA

(Filter is located below the windscreen)

- 1. The cabin air filter is located below the windscreen towards the passenger side.**
- 2. Open the bonnet and identify the plastic cover just below the windscreen wiper on the passenger side. Remove the screws holding it in place then remove partially the seal in front of it and remove the screws below it.**
- 3. Pull the trim cover out and remove the inner plastic cover underneath and behind the cabin air filter housing will be located.**
- 4. Lift the housing lid up and remove the old filter carefully to avoid debris spreading around. Clean area and insert the new filter making sure it is in the right air flow direction. Refit all components in reverse order.**
