

RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA282P. NISSAN 370Z

1. The cabin air filter is located behind the glove box compartment. To gain access to the cabin air filter it is required to be removed.
2. For better working space, slide the passenger seat all the way back. Remove the side plastic panel of the dash facing the door and then unclip the plastic trim below the glove box unit in the footwell area.
3. Open the glove box and remove all screws around the compartment so it can be removed then pull out and place aside.
4. Identify the cabin air filter housing and unclip the housing from the side and slide the old cabin filter out carefully to avoid any accumulated debris from being spread around.
5. Insert the new cabin filter into the frame making sure it faces to the correct air flow direction and slide it in into the housing . Refit all components in reverse order
