

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA310P.

SSANGYONG Korando (C200)

1. The cabin air filter is located behind the glove box compartment.
2. Open the glove box and empty it of any stored items, it will make the job easier. Unclip the strut on the side of the glove box facing the door then push in both top corners of the compartment to unhinge the lid allowing it to be opened fully.
3. Identify the cut open section in the back panel, the cabin air filter housing is in there. Unclip the cover and slide it out. Remove the old cabin filter from the frame and insert the new filter ensuring it is facing in the correct air flow direction.
4. Clean the area of any accumulated debris and insert the filter into the housing. Refit all components in reverse order.
