

RCA417M FITMENT INSTRUCTION

TESLA MODEL 3 ELECTRIC ENGINE MODEL EO MAY19 - ON

- 1. The cabin air filter is located behind the side panel from the centre console.**
- 2. To access the cabin filter housing. Use a trim tool to carefully release the right side panel from the center console.**
- 3. Use a clip pry tool to carefully release the push clips that secure the front passenger footwell cover to the instrument panel. Then, while supporting the footwell cover, disconnect the two electrical connectors and move the footwell cover aside.**
- 4. Remove the T20 screw that secures the cabin filter cover to the heating, ventilation, and air conditioning (HVAC) module then release the cabin filter cover and move it aside.**
- 5. Holding the tab on the upper cabin filter, pull the upper filter out from the HVAC module. Holding the tab on the lower cabin filter, pull the lower filter upwards and then out from the HVAC module.**
- 6. Fit the new Ryco cabin air filter by ensuring the air flow arrow points right direction. Refit all components in reverse order and dispose of the used filter properly.**
