

RYCO FILTERS

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA261P.

CHRYSLER PT CRUISER

(Filter is located at engine bay)

1. The cabin filter is located in passenger side engine bay in the same compartment as where the windshield washer bottle is.
2. Using a screw driver remove the screws holding the trim cover of washer bottle compartment sitting right below the windscreen. There are 4 screws in total, one on the side and three on top. Once those screws are off remove cover.
3. The filter is now easy to spot sitting behind the washer bottle. Remove the three bolts holding the bottle and pull the bottle towards you to allow for space.
4. Reach the cabin air filter and remove. Clean dirt trapped in the housing and replace old filter with new one. Refit all components in reverse order.
