

TOYOTA HILUX (GUN), TOYOTA FORTUNER (GUN) & PRIUS (ZVW50R)

FILTER IS LOCATED BEHIND THE GLOVE BOX

WORK PROCEDURE

- 1 Open the glove box and empty it of any stored items, it will make the job easier. Press in both top front corners and pull down the lid until the stopper has been bypassed. Now unhinge the strut located to the left hand side of the box. Remove the box and put aside.
- 2 The cabin air filter housing can be seen at this point. Identify the lid and proceed to open it by pressing the release tab on the corner.
- 3 Pull the old cabin air filter out and clean the area of any accumulated debris.
- 4 Insert the new cabin air filter facing in the correct air flow direction as indicated on the filter.
- 5 Refit all components in reverse order.
