

FITTING INSTRUCTIONS FOR RYCO CABIN FILTER RCA330C.

FORD Mondeo (MD)

- 1. The cabin air filter is located behind the glove box. The complete assembly requires to be removed to gain access to the housing.**
- 2. With the glove box closed, remove both bolts securing the unit at the bottom then open the glove box and remove the side plastic trim facing the door. Lastly, gently pull out the decorative plastic strip and air vent (all one piece).**
- 3. Remove both bolts securing the unit at the top and pull the entire unit out carefully and disconnect the light electrical connector.**
- 4. The cabin air filter will be visible at this stage sitting on top of the blower fan. Remove both bolts in the corner of the lid securing it against the housing.**
- 5. Pull the old cabin filter out gently to avoid any accumulated debris from being spread around. Clean the area and insert the new cabin air filter in the right air flow direction. Refit all components in reverse order.**
